Privacy Notice

This notice describes the Fund's privacy policy. The Fund is committed to protecting the personal information that it collects about individuals who are prospective, former or current investors. The Fund collects personal information ("Personal Information") for business purposes, such as to process requests and transactions, to maintain accounts, and to provide customer service. Personal Information is obtained from the following sources:

- Investor applications and other forms, which may include your name(s), address, social security number or tax identification number;
- Written and electronic correspondence, including telephone contacts; and
- Transaction history, including information about the Fund's transactions and balances in your accounts with the Fund or its affiliates or other holdings of the Fund and any affiliation with the Adviser and its subsidiaries.

The Fund limits access to Personal Information to those employees and service providers who need to know that information for business purposes. Employees are required to maintain and protect the confidentiality of Personal Information. The Adviser, on behalf of the Fund, maintains written policies and procedures that address physical, electronic and administrative safeguards designed to protect Personal Information.

The Fund may share Personal Information described above with the Adviser and its various other affiliates or service providers for business purposes, such as to facilitate the servicing of accounts. The Fund may share the Personal Information described above for business purposes with a non-affiliated third party only as authorized by exceptions to Regulation S-P's opt-out requirements, for example, if it is necessary to effect, administer, or enforce a transaction that an investor requests or authorizes; (ii) in connection with processing or servicing a financial product or service an investor requests or authorizes; and (iii) in connection with maintaining or servicing the investor's account with the Fund. The Fund also may disclose Personal Information to regulatory authorities or otherwise as permitted by law. The Fund endeavors to keep its customer files complete and accurate. The Fund should be notified if any information needs to be corrected or updated.

VERSUS CAPITAL REAL ASSETS FUND LLC

Shareholder Letter

March 31, 2024 (Unaudited)

Dear Shareholders,

The quarters preceding Versus Capital Real Assets Fund's (the "Fund" or "VCRRX") 2024 fiscal year end saw stickier inflation and a decreased probability of the Federal Reserve cutting interest rates. The market is now expecting less than two rate cuts in 2024, compared to the six or more forecast at the start of the calendar year. Higher for longer interest rates continue to be a headwind for many risk assets, particularly real estate. However, the potential diversification benefits of real asset investments in infrastructure, farmland, and timberland continue to be evident as VCRRX was insulated from much of the volatility experienced by the broader market. As of the Fund's March 31, 2024 fiscal year end, the Fund provided shareholders exposure to a globally diversified portfolio of infrastructure, farmland, and timberland assets across approximately 900 distinct investments.

The Fund's investments in infrastructure provide exposure to a wide variety of critical infrastructure assets including energy (e.g. midstream and liquefied natural gas), digital, renewables, transportation, utilities, and social infrastructure assets. Private infrastructure, both equity and debt, performed well, delivering +7.42% (net of private fund fees and expenses) and +11.22% (net of private fund fees and expenses) returns, respectively, over the twelve-month period ended March 31, 2024. High inflation environments generally are beneficial for infrastructure as contracts typically have inflation escalators that result in revenue increases in excess of cost increases. Higher interest rates placed some upward pressure on infrastructure discount rates, but this increase was offset by increased income and strong investor demand. GDP-linked infrastructure investments, including ports, rails, toll roads, and airport investments, continued to recover from the pandemic and in most cases usage/traffic now exceeds pre-pandemic levels. The drastic surge in Artificial Intelligence -related investment has been a boon to the digital infrastructure space, particularly data centers and this is a sector that we believe will drive fund performance over the near- and mid-term. AI will likely also be a significant tailwind to traditional and renewable energy as AI technology needs a vast amount of energy and will require significant investment in the grid to cope with increased demand.

The Fund's agricultural positions produced a +3.67% (net of private fund fees and expenses) return for the twelve-month period ended March 31, 2024. Strong crop yields and lower input prices positively affected farm income despite a decrease in crop prices. Elevated farmer income and robust demand from both investors and operators pushed up farmland values and led to an attractive appreciation return. We continue to be pleased with the Fund's diversified portfolio of row, permanent, and specialty crops, spread across seven private investment funds and direct positions. While there may be some short-term headwinds facing the sector, such as soft crop prices and forecast decline in farm income, we remain positive on the long-term secular demand drivers behind farmland, such as a growing global population, higher per capita calorie consumption, and increasing demand for natural capital solutions.

The Fund's timberland holdings generated a +4.71% return (net of private fund fees and expenses) for the twelve-month period ended March 31, 2024. There was some softness in global timber markets as high mortgage rates negatively impacted housing starts, which dampened timber demand. Pulpwood pricing fell sharply during 2023 due to oversupply issues, but we remain positive on the long-term demand drivers behind the space, namely increased e-commerce usage. Investment into new lumber mill capacity in the US South continues, which should be another tailwind to timber demand due to increased demand from mills. Natural capital solution buyers continue to enter the space due to its strong "ESG" (environmental, social, governance) and carbon capture characteristics, which has led to an increase in land values. The US housing market remains structurally undersupplied, which we believe will be an enduring tailwind to the timber space as the housing sector is the biggest source of demand for timber domestically.

While positive, VCRRX's public portfolio was the worst performing sub-sector during fiscal year 2024. The Fund's public sector allocation, managed by Brookfield and Lazard, produced a +1.54% (net) return for the year ending March 31, 2024. The Fund's target public sectors largely missed out on the tech-based rally that the broader equity market experienced in calendar 2023. We remain optimistic that 2024 will be a better year for listed infrastructure markets as valuations have been relatively suppressed compared to the broader market.

The Fund finished its fiscal year ended March 31, 2024, with positive performance generating a +3.25% net return over the trailing twelve-month period; this trailed the S&P Real Assets Index return of +5.50% over the same time period. Over the medium and long-term, VCRRX has generated annualized net returns of +4.89% and +4.44% over the trailing five-year and since-inception periods, respectively. The Fund's inception date is September 18, 2017. These returns compare favorably to the S&P Real Assets Index returns of +3.46%, and +3.38% over the same time periods. We are generally pleased with the Fund's allocations, though we are actively pursuing an increase to the private infrastructure debt allocation due to the sector's strong risk-adjusted returns in the current high interest rate environment.

Performance Disclosure: *Quoted performance is net of all fees and expenses. Past performance does not guarantee future results. The performance data quoted represents past performance and future returns may be lower or higher. Total return figures include change in share price, reinvestment of dividends and capital gains. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Performance data current to the most recent month end may be obtained by calling 877-200-1878.*

VERSUS CAPITAL REAL ASSETS FUND LLC

Shareholder Letter

March 31, 2024 (Unaudited) (continued)

The Fund continues to provide exposure to a variety of real asset sectors that we believe are critical to the functioning of modern society (resulting in consistent demand profiles) and are positioned to excel the current inflationary environment continues for longer than expectations. We remain committed to investing capital on behalf of our shareholders and continuing to source unique and compelling investments. In closing, on behalf of myself and our employees, thank you for your investment in and commitment to our Fund. We consider it a privilege to invest on your behalf.

Sincerely,

Mark Quam
Chief Executive Officer

Fund Performance

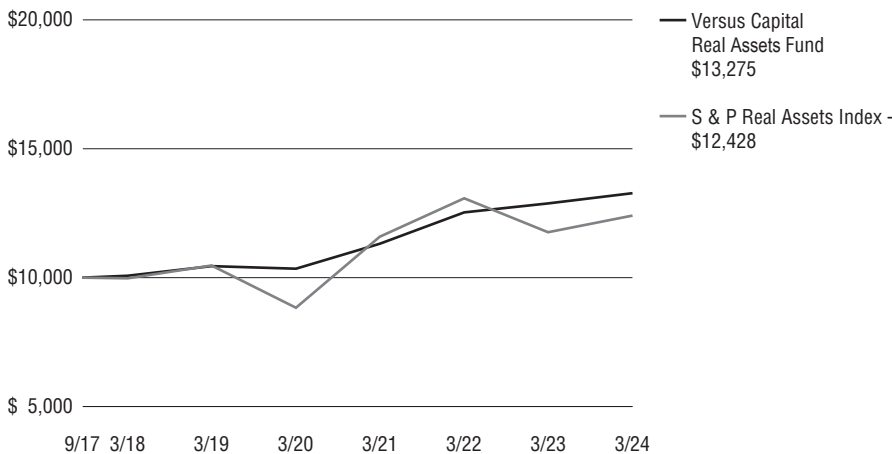

March 31, 2024 (Unaudited)

Average Annual Total Returns^(a) for the periods ended March 31, 2024

	1 Year	5 Year	Since Inception (September 18, 2017)
Versus Capital Real Assets Fund LLC ^(b)	3.25%	4.89%	4.44%
S&P Real Assets Index ^(c)	5.50%	3.46%	3.38% ^(d)

Growth of \$10,000 for periods ended March 31, 2024^{(a),(b)}

This graph shows the change in value of a hypothetical investment of \$10,000 in the Fund made on September 18, 2017 for the years indicated. For comparison, the same investment is shown in the indicated index.

- (a) Past performance is not indicative of future results. Current performance may be lower or higher than performance in historical periods.
- (b) Total return is calculated using the net asset value of the Fund on the beginning and ending date of each period reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at the Fund's net asset value. The Fund intends to make regular quarterly distributions to shareholders. The level of quarterly distributions is not fixed. Each distribution is based upon both actual and estimated cash flows received from the Fund's investments as well as the tax requirements under which it operates and therefore may ultimately include returns of capital. Returns are not annualized for periods of less than one year. Brokerage commissions that a shareholder may pay are not reflected. Total return does not reflect the deduction of taxes that a shareholder may pay on Fund distributions or the repurchase of Fund shares. The Fund's gross expense ratio as of its Prospectus dated July 27, 2023 was 1.48%.
- (c) The index is unmanaged and is not available for direct investment. Its performance does not reflect the expenses associated with the active management of a portfolio.
- (d) Represents the average annual return of the index from the Fund's inception date.

VERSUS CAPITAL REAL ASSETS FUND LLC

Fund Performance

March 31, 2024 (Unaudited) (continued)

Definitions & Index Descriptions

S&P Real Assets Index is an unmanaged index designed to measure global property, infrastructure, commodities, and inflation-linked bonds using liquid and investable component indices that track public equities, fixed income, and futures. It is not possible to invest directly in an index.

Discount Rate is the interest rate used in discounted cash flow modeling to estimate the value of an investment based on its expected future cash flows.

An investment in the Fund is subject to a high degree of risk. These risks include, but are not limited to, the following: Real Assets entails special risks, including tenant default, environmental problems, and adverse changes in local economies. The Fund is “non-diversified” under the Investment Company Act of 1940. Changes in the market value of a single holding may cause greater fluctuation in the Fund's net asset value than in a “diversified” fund. The Fund is not intended as a complete investment program but instead as a way to help investors diversify into real assets. Diversification does not ensure a profit or guarantee against a loss. A multi-manager strategy involves certain risks. For example, it is possible that some Investment Managers may take similar market positions, thereby interfering with the Fund's investment goal. The Fund and underlying Investment Managers may borrow as an investment strategy, up to one third of the Fund's gross asset value. Borrowing presents opportunities to increase the Fund's return, but potentially increases the losses as well. The Adviser and Investment Managers manage portfolios for themselves and other clients. A conflict of interest between the Fund and these other parties may arise which could disadvantage the Fund. For example, a suitable but limited investment opportunity might be allocated to another client rather than to the Fund. The Fund does not intend to list its Shares on any securities exchange during the offering period, and a secondary market in the Shares is not expected to develop. There is no guarantee that shareholders will be able to sell all of their tendered shares during a quarterly repurchase offer. An investment is not suitable for investors that require liquidity, other than through the Fund's repurchase policy. You should not expect to be able to sell your Shares other than through the Fund's repurchase policy, regardless of how the Fund performs.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders
Versus Capital Real Assets Fund LLC

Opinion on the financial statements

We have audited the accompanying statement of assets and liabilities of Versus Capital Real Assets Fund LLC (the “Fund”), including the portfolio of investments, as of March 31, 2024, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of March 31, 2024, the results of its operations and its cash flows for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of March 31, 2024, by correspondence with the custodian, underlying fund managers and brokers; when replies were not received, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ GRANT THORNTON LLP

We have served as the Fund’s auditor of one or more investment companies in the Fund’s investment company group since 2011.

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024

NOTE 1. ORGANIZATION

Versus Capital Real Assets Fund LLC (the “Fund”) is a Delaware limited liability company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a non-diversified, closed-end management investment company that is operated as an interval fund. The Fund’s investment objective is to achieve long-term Real Returns through current income and long-term capital appreciation with low correlation to the broader public equity and debt markets. “Real Returns” are defined as total returns adjusted for the effects of inflation. The Fund attempts to achieve this objective by investing substantially all of its assets in public and private investments in global infrastructure, timberland and agriculture/farmland (“Real Asset Related Investments”). The Fund may also invest in a wholly-owned and controlled subsidiary (the “Subsidiary”) that will make direct investments into timberland and agriculture/farmland assets. The Fund will maintain voting control of the Subsidiary. The Subsidiary will be a real estate investment trust (“Sub-REIT”) and the Fund shall report its investment in the Sub-REIT in accordance with generally accepted accounting principles. Accordingly, the Fund’s investment in the Sub-REIT shall be valued utilizing the fair value principles outlined within the Fund’s valuation Policy. For purposes of the Fund’s leverage and concentration policies under the Investment Company Act, the assets of the Sub-REIT will be consolidated with the assets of the Fund in order to determine compliance with such policies. Any leverage incurred at the Subsidiary level will be aggregated with the Fund’s leverage for purposes of complying with Section 18 of the Investment Company Act. For purposes of complying with its fundamental and non-fundamental investment restrictions and policies pursuant to Section 8 of the Investment Company Act, the Fund will aggregate its direct investments with the investments of the Subsidiary. The Fund is authorized to issue an unlimited number of shares of beneficial interest without par value and has registered an indefinite number of shares under the Securities Act of 1933. The Fund’s investment adviser is Versus Capital Advisors LLC (the “Adviser”).

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to investment companies. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Investment Income and Securities Transactions - Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. Dividend income is recorded net of applicable withholding taxes. Interest income is accrued daily. Premiums and discounts are amortized or accreted on an effective yield method on fixed income securities. Dividend income from REIT investments is recorded using management’s estimate of the percentage of income included in distributions received from such investments based on historical information and other industry sources. The return of capital portion of the estimate is a reduction to investment income and a reduction in the cost basis of each investment which increases net realized gain (loss) and net change in unrealized appreciation (depreciation). If the return of capital distributions exceed its cost basis, the distributions are treated as realized gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts. The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and reclaims as applicable, based upon their current interpretation of tax rules and regulations that exist in the markets in which the Fund invests. Securities are accounted for on a trade date basis. The cost of securities sold is determined and gains (losses) are based upon the specific identification method.

Foreign Currency - Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates at 4:00 p.m. U.S. ET (Eastern Time). Fluctuations in the value of the foreign currencies and other assets and liabilities resulting from changes in exchange rates are recorded as unrealized foreign currency gains (losses). Realized gains (losses) and unrealized appreciation (depreciation) on investment securities and income and expenses are translated on the respective dates of such transactions. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, and are included with the net realized and net change in unrealized gain or loss on investment securities.

Dividends and Distributions to Shareholders - The Fund will make regular quarterly distributions to shareholders of all or a portion of any dividends or investment income it earns on investments. In addition, the Fund will make regular distributions to the shareholders of all or a portion of capital gains distributed to the Fund by Investment Funds and capital gains earned by the Fund from the disposition of Investment Funds or other investments, together with any dividends or interest income earned from such investments. A portion of any distribution may be a return of capital or from other capital sources. Dividends and distributions to shareholders are recorded on the ex-dividend date.

All distributions paid by the Fund will be reinvested in additional Shares of the Fund unless a shareholder affirmatively elects not to reinvest in Shares. Shareholders may elect initially not to reinvest by indicating that choice in writing to the Fund’s transfer agent. Thereafter, shareholders are free to change their election by contacting the Fund’s transfer agent (or, alternatively, by contacting the selling agent that sold such shareholder its Shares, who will inform the Fund). Shares purchased by reinvestment will be issued at their NAV on the ex-dividend date. There is no sales load or other charge for Shares received by reinvestment. The Fund reserves the right to suspend or limit at any time the ability of shareholders to reinvest distributions. The automatic reinvestment of distributions does not relieve participants of any U.S. federal income tax that may be payable (or required to be withheld) on such distributions.

U.S. Federal Income Tax Information - The Fund intends to qualify each year as a “regulated investment company” under the Internal Revenue Code of 1986, as amended. By so qualifying, the Fund will not be subject to federal income taxes to the extent that it distributes substantially all of its net investment income and any realized capital gains. This policy may cause multiple distributions during the course of the year, which are recorded on the ex-dividend date.

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024 (continued)

As of and during the year ended March 31, 2024, the Fund did not have a liability for any unrecognized tax obligations. The Fund recognizes interest and penalties, if any, related to unrecognized tax obligations as income tax expense in the statement of operations. During the year, the Fund did not incur any interest or penalties. The Fund identifies its major tax jurisdiction as U.S. Federal. Tax returns filed within the prior three years generally remain subject to examination by federal and state tax authorities when applicable statutes of limitations have not expired.

Dividends from net investment income and distributions from realized gains are determined in accordance with federal income tax regulations, which may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements. To the extent these differences are permanent, such amounts are reclassified within the capital accounts at fiscal year end based on the tax treatment; temporary differences do not require such reclassification. As of March 31, 2024, permanent differences identified and reclassified among the components of net assets were to increase undistributed net investment income by approximately \$59,838,000, to increase accumulated net realized gain by approximately \$25,980,000, and to decrease paid-in-capital by approximately \$85,818,000.

For the year ended March 31, 2024, tax character of the distribution paid by the Fund was approximately \$811,000 of ordinary income dividends, approximately \$1,867,000 of long term capital gains, and approximately \$82,585,000 of return of capital. For the year ended March 31, 2023, the tax character of the distribution paid by the Fund was approximately \$1,541,000 of ordinary income dividends, approximately \$37,720,000 of long term capital gains, and approximately \$41,500,000 of return of capital. Distribution from net investment income and short-term capital gains are treated as ordinary income for federal income tax purposes.

Net capital losses incurred may be carried forward for an unlimited time period, and retain their tax character as either short-term or long-term capital losses. As of March 31, 2024, the Fund had no capital loss carryovers available to offset future capital gains.

Under federal tax law, capital and qualified ordinary losses realized after October 31 and December 31, respectively, may be deferred and treated as having arisen on the first day of the following fiscal year. For the year ended March 31, 2024, the Fund had no qualified late year losses.

As of March 31, 2024, the gross unrealized appreciation and depreciation and net unrealized appreciation on a tax basis were approximately \$517,539,000, \$(50,552,000) and \$466,987,000, respectively. The aggregate cost of securities for federal income tax purposes at March 31, 2024, was approximately \$2,540,614,000. As of March, 31 2024, the Fund had undistributed ordinary income and undistributed long-term capital gains of \$0 and \$0 respectively.

Guarantees and Indemnifications - In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown and this would involve future claims against the Fund that have not yet occurred. Based on experience, the Fund would expect the risk of loss to be remote.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities (disclosure of contingent assets and liabilities) at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

NOTE 3. SECURITIES VALUATION

The Board of Directors (the "Board") has established procedures (the "Procedures") pursuant to which the Fund prices its securities, consistent with Sections 2(a)(5) and 2(a)(41) of the 1940 Act, as follows:

Publicly Traded Securities - Investments in securities that are listed on the New York Stock Exchange (the "NYSE") are valued, except as indicated below, at the official closing price reflected at the close of the NYSE on the business day as of which such value is being determined. If there has been no published closing price on such day, the securities are valued at the mean of the closing bid and ask prices for the day or, if no ask price is available, at the bid price. Securities not listed on the NYSE but listed on other domestic or foreign securities exchanges are valued in a similar manner. Securities traded on more than one securities exchange are valued at the closing price of the exchange representing the principal market for such securities on the business day as of which such value is being determined. If, after the close of a domestic or foreign market, but prior to the close of business on the day the securities are being valued, market conditions change significantly, the domestic or foreign securities may be fair valued pursuant to the Procedures.

Securities traded in the over-the-counter market, such as fixed-income securities and certain equities, including listed securities whose primary market is believed by the Adviser to be over-the-counter, are valued at the official closing prices as reported by sources as the Board deems appropriate to reflect their fair market value. If there has been no official closing price on such day, the securities are valued at the mean of the closing bid and ask prices for the day or, if no ask price is available, at the bid price. Fixed-income securities typically will be valued on the basis of prices provided by a pricing service, generally an evaluated price or the mean of closing bid and ask prices obtained by the pricing service, when such prices are believed by the Adviser to reflect the fair market value of such securities. Syndicated loans are valued by Approved Pricing Sources at the average of broker quotes obtained from market makers deemed reliable by their internal evaluation staff or by internally developed models that incorporate both indicative quotes and actual trade data for similar loans.

Short-term debt securities, which have a maturity date of 60 days or less, are valued at amortized cost, which approximates fair value.

Investments in open-end mutual funds are valued at their closing NAV.

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024 (continued)

Securities for which market prices are unavailable, or securities for which the Adviser determines that the market quotation is unreliable, will be valued at fair value pursuant to the Procedures. In these circumstances, the Adviser determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include recent transactions in comparable securities, information relating to the specific security and developments in the markets. The Fund's use of fair value pricing may cause the NAV of the Shares to differ from the NAV that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of such security.

Private Investment Funds - The Fund typically values its investments in each Private Investment Fund according to the value reported by each Private Investment Fund's quarterly NAV statement. The Fund also reviews this information for reasonableness based on its knowledge of current market conditions and the individual characteristics of each Private Investment Fund and may clarify or validate the reported information with the applicable manager of the Private Investment Fund. The valuation for each Private Investment Fund is individually updated as soon as the Fund completes its reasonableness review, including any necessary information validations with the manager of the Private Investment Fund, and typically within 45 calendar days after the end of each quarter for all Private Investment Funds. The Fund may conclude, in certain circumstances, that the information provided by any such manager does not represent the fair value of the Fund's investment in a Private Investment Fund and is not indicative of what actual fair value would be under current market conditions. In those circumstances, the Fund may determine to value its investment in the Private Investment Fund at a discount or a premium to the reported value received from the Private Investment Fund. Any such decision will be made in good faith by the Fund and will be reported to the Board's Valuation Committee at its next regularly scheduled quarterly meeting. The Fund shall use its best efforts to ensure that each of such Private Investment Funds has in place policies and procedures that provide underlying principles behind the disclosure of reliable information with adequate supporting operational practices.

Additionally, between the quarterly valuation periods, the NAVs of such Private Investment Funds are adjusted daily based on the total return that each Private Investment Fund is estimated by the Fund to generate during the current quarter (the "Investment Accrual Rate"). The Fund determines the Investment Accrual Rate at the beginning of each quarter, based on internally developed models that weight the expected impacts of income and appreciation projections by property sector, adjusting for expected market factors and underlying expenses. The Fund monitors these estimates regularly and updates them as necessary if macro or individual fund changes warrant any adjustments.

In certain circumstances, the Fund may access daily or periodic NAV information provided by a Private Investment Fund. In such an instance, the Fund may determine to value its investment in a Private Investment Fund according to this information and may forego daily valuation adjustments based on an Investment Accrual Rate.

If the Fund does not have access to sell shares of a Private Investment Fund in its primary market, the Fund may determine to fair value the Private Investment Fund at a price other than its NAV. In such an instance, the Fund may consider any information it deems appropriate including as received from broker-dealers and/or pricing services or comparable sales in the secondary market. Any such fair valuation determinations will be made in good faith by the Fund, may be based upon an internally developed pricing model, and will be reported to the Board's Valuation Committee at its next regularly scheduled quarterly meeting.

The March 31, 2024 Portfolio of Investments presented herein reports the value of all the Fund's investments in Private Investment Funds at the respective NAVs provided by the managers of the Private Investment Funds and their agents, which may differ from the valuations used by the Fund in its March 31, 2024 NAV calculation.

Due to the inherent uncertainty of determining the fair value of investments that do not have readily available market quotations, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or may otherwise be less liquid than publicly traded securities.

Sub-REIT Investment - The Fund has adopted procedures pursuant to which the Fund will value its investment in the Sub-REIT at fair value. In accordance with these procedures, the Adviser shall require the external management companies of any direct investments to follow similar procedures to those that are outlined above for the continuously offered Private Investment Funds.

At March 31, 2024, Versus Capital Real Assets Sub-REIT II LLC owned: an alfalfa property in Bent County, Colorado fair valued at approximately \$19.1 million; almond, walnut, peach and prune properties in Placer and Sutter counties in California fair valued at approximately \$27.1 million, net of property level debt; a citrus property in Collier County, Florida fair valued at approximately \$31.5 million; and a hazelnut property in Benton County, Oregon fair valued at approximately \$21.7 million.

Private Debt Investments - The Fund will use its best efforts to value each private debt investment at its fair value under current market conditions. In doing so, the Fund will engage external valuation consultants to aid in the fair value determination of each private debt investment.

The Fund will work with the external valuation consultants to select an appropriate fair valuation approach for each private debt investment, which may include, but is not limited to, yield, market and cost approaches, or a combination of approaches. The external valuation consultant, in consultation with the Valuation Designee, may develop a unique valuation model or method for each individual private debt investment. The models and/or methods used may consider, among other things, comparable sector curve information, public market valuations, transaction prices, discounted cash flow analyses, assessments of borrower credit quality, borrower- or project-specific financial information, and/or other relevant information. Models may apply changes to certain public market inputs, such as comparable sector curves and/or benchmarks, only upon a change exceeding predetermined volatility thresholds and may also incorporate adjustments to public market inputs, such as the application of haircuts at levels which may vary based on market

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024 (continued)

circumstances. The models and/or methods used by the external valuation consultant will produce information such as a specific price estimate, an estimated valuation range or confirmation that the prior day's price estimate remains appropriate.

The Fund will review the intended valuation approach and/or valuation model for each private debt investment as developed by an external valuation consultant prior to its implementation. This review may consider numerous factors such as the particular investment's contractual cash flows, the financial strength and operational performance of the borrower, and the debt instrument's spread to relevant base rates. The Fund may receive certain initial and/or periodic financial information from the borrower, loan administrator, arranger, monitoring agent, and/or other external parties, and will provide this information to the external valuation consultant for consideration in the valuation model.

The Fund will determine a fair valuation for each private debt investment daily, typically based on information received from an external valuation consultant (i.e., outputs from the models and/or methods described above). The Fund will review the valuation estimates provided by the external valuation consultants for reasonableness based on its knowledge of each investment and current market conditions. When a valuation range is provided, the Fund will generally determine to keep the valuation unchanged if the prior day's price falls within the current day's range. These valuation processes may result in a private debt investment's valuation being unchanged for a period of time.

In certain circumstances, an externally provided valuation range or specific price estimate may be unavailable or the Fund may determine that the valuation received does not represent the fair value of the private debt investment based on current market conditions. In such an instance, the Fund will determine the fair value of the investment, in good faith, via alternative means which may include, among others, valuing the investment at its prior day's price, valuing the investment at its amortized cost, or implementing an internally developed model. In determining such a fair valuation, the Fund may consider any information it deems appropriate including as received directly from the borrower, as received from alternative external information sources, including monitoring agents, or as reflected by current general market conditions.

Fair Value Measurements: The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 – unadjusted quoted prices in active markets for identical securities
- Level 2 – prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

At the end of each calendar quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; the existence of contemporaneous, observable trades in the market; and changes in listings or delistings on national exchanges. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of inputs used to value the Fund's investments as of March 31, 2024 is as follows:

	Total Fair Value at 03/31/2024	Level 1 Quoted Price	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Private Investment Funds (Sub-REIT)*	\$ 105,031,520	\$ —	\$ —	\$105,031,520
Common Stocks*	363,741,038	227,311,728	136,429,310	—
Warrants*	—**	—	—	—**
Real Estate Investment Trust*	27,602,546	27,602,546	—	—
Corporate Debts*	125,722,489	—	125,722,489	—
Private Debts*	34,452,194	—	—	34,452,194

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024 (continued)

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Total	Private Investments Funds (Sub-REIT)	Warrants	Private Debts
Balance as of 03/31/2023	\$121,691,077	\$ 121,691,077	\$ —	\$ —
Transfers into Level 3	—	—	—	—
Net purchases (sales)	34,211,658	—	—**	34,211,658
Accretion and Amortization	36,487	—	—	36,487
Realized Gain	—	—	—	—
Change in unrealized gain/loss	(16,455,508)	(16,659,557)	—	204,049
Balance as of 03/31/2024	<u>\$139,483,714</u>	<u>\$ 105,031,520</u>	<u>\$ —**</u>	<u>\$ 34,452,194</u>

** Securities valued at \$0.

For the year ended March 31, 2024, the total change in unrealized gain/loss on Level 3 securities still held at the end of the period was \$(16,455,508).

The Sub-REIT is categorized as Level 3 of the fair value hierarchy and their fair values are largely based upon the externally appraised values of the underlying properties that they hold. Such appraisals are generally based on identified comparable sales as well as discounted cash flow analyses that rely on contractual lease factors, estimates of crop yields and appropriate discount rates. Significant changes in such estimates could have material changes to the appraised values of the underlying properties and the resulting fair values of the Sub-REIT. The following table summarizes the valuation techniques and significant unobservable inputs used for the Fund's investments that are categorized in Level 3 of the fair value hierarchy at March 31, 2024:

Category	Total Fair Value at 03/31/2024	Valuation Technique	Unobservable Inputs	Input Range
Private Investment Funds (Sub-REIT) ..	105,031,520	Income Capitalization Approach	Discount Rate	2.90% - 6.40%
Warrants	—**	Sales Comparison Approach	Price Per Net Acre	\$2,840 - \$26,400
		Intrinsic Value	Redemption Price	\$0.00
		Amortized Cost	Cost	\$0.98 - \$1.00
Private Debts	<u>34,452,194</u>	Discounted Cash Flow	Discount Rate	10.88% - 10.93%
Balance as of 03/31/2024	<u>\$139,483,714</u>			

** Securities valued at \$0.

NOTE 4. FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Pursuant to an Investment Management Agreement, Versus Capital Advisors LLC serves as the investment adviser to the Fund. For its services under this agreement, the Fund pays the Adviser an Investment Management Fee at an annual rate of 1.15% of the Fund's NAV, which accrues daily based on the net assets of the Fund and is paid quarterly. The Fund incurred fees to the Adviser of \$34,911,655 for the year ended March 31, 2024.

The Adviser has retained the services of the following sub-advisers for the Fund: Brookfield Public Securities Group LLC and Lazard Asset Management LLC. The sub-advisers each manage a specified portion of the Fund's assets to be invested in domestic and international public and private securities, such as common equities, preferred shares and debt investments associated with real assets (including secured debt and mezzanine financing). The Adviser incurred fees to the Investment Managers of approximately \$2,775,000 for the year ended March 31, 2024. Fees paid to sub-advisers are based on the average net assets that they manage at an annual rate up to 0.60% and are paid by the Adviser from its Investment Management Fee.

Foreside Funds Distributors LLC, (the "Distributor") serves as the Fund's statutory underwriter and facilitates the distribution of Shares.

The Fund pays each Independent Director a fee per annum. In addition, the Fund reimburses each of the Independent Directors for travel and other expenses incurred in connection with attendance at meetings; provided, however, that if more than three board meetings require out-of-town travel time, such additional travel time may be billed at the rate set forth in the Board of Directors Retainer Agreement or as amended by action of the Board from time to time. Each of the Independent Directors is a member of all Committees. The Chairman of the Audit Committee receives an additional fee per annum. Other members of the Board and executive officers of the Fund receive no compensation. The Fund also reimburses the Adviser for a portion of the compensation that it pays to the Fund's Chief Compliance Officer.

Notes to Financial Statements
March 31, 2024 (continued)

NOTE 5. MARKET RISK FACTORS

The Fund's investments in securities and/or financial instruments may expose the Fund to various market risk factors including, but not limited to the following:

General Market Fluctuations Will Affect the Fund's Returns. At times, the Fund's investments in Private Investment Funds and Real Asset Related Investments will be negatively affected by the broad investment environment in the timberland, agriculture/farmland or infrastructure markets, the debt market and/or the equity securities market.

Risks of Investing in Infrastructure. An investment in the Fund is subject to certain risks associated with the ownership of infrastructure and infrastructure-related assets in general, including: the burdens of ownership of infrastructure; local, national and international economic conditions; the supply and demand for services from and access to infrastructure; the financial condition of users and suppliers of infrastructure assets; changes in interest rates and the availability of funds which may render the purchase, sale or refinancing of infrastructure assets difficult or impracticable; changes in environmental laws and regulations, and planning laws and other governmental rules; environmental claims arising in respect of infrastructure acquired with undisclosed or unknown environmental problems or as to which inadequate reserves have been established; changes in energy prices; changes in fiscal and monetary policies; negative developments in the economy that depress travel; uninsured casualties; force majeure acts, terrorist events, under-insured or uninsurable losses; and other factors which are beyond the reasonable control of the Fund or the Private Investment Funds.

Risks of Investing in Timberland. An investment in the Fund is subject to certain risks associated with the ownership of timberland, timber and timber-related assets in general, including: the volatility of forest product prices; changes in foreign and U.S. trade and tariff policies; general market forces, such as regional growth rates, construction activity, changes in currency exchange rates and capital spending; competition from the use of alternative building materials and other decreases in demand; forestry regulations restricting timber harvesting or other aspects of business; the illiquidity of timber related asset investments; losses from fire and other causes; uninsured casualties; force majeure acts, terrorist events, underinsured or uninsurable losses; and other factors which are beyond the reasonable control of the Fund or the Private Investment Funds.

Risks of Investing in Agriculture/Farmland. Investments in agriculture/farmland are subject to various risks, including adverse changes in national or international economic conditions, adverse local market conditions, adverse natural conditions such as storms, floods, drought, windstorms, hail, temperature extremes, frosts, soil erosion, infestations and blights, failure of irrigation or other mechanical systems used to cultivate the land, financial conditions of tenants, marketability of any particular kind of crop that may be influenced, among other things, by changing consumer tastes and preferences, import and export restrictions or tariffs, casualty or condemnation losses, government subsidy or production programs, buyers and sellers of properties, availability of excess supply of property relative to demand, changes in availability of debt financing, changes in interest rates, real estate tax rates and other operating expenses, environmental laws and regulations, governmental regulation of and risks associated with the use of fertilizers, pesticides, herbicides and other chemicals used in commercial agriculture, zoning laws and other governmental rules and fiscal policies, energy prices, changes in the relative popularity of properties, risk due to dependence on cash flow, as well as acts of God, uninsurable losses and other factors which are beyond the control of Private Investment Funds.

Risks of Investing in Equity Securities. The prices of equity and preferred securities fluctuate based on changes in a company's financial condition and overall market and economic conditions. Preferred securities may be subject to additional risks, such as risks of deferred distributions, liquidity risks, and differences in shareholder rights associated with such securities.

Risks of Investing in Debt Securities. The Fund will invest in real asset related debt securities. Other factors may materially and adversely affect the market price and yield of such debt securities, including investor demand, changes in the financial condition of the borrower, government fiscal policy and domestic or worldwide economic conditions. The Fund's debt securities will be subject to credit risk, which is the risk that an issuer will be unable to make principal and interest payments on its outstanding debt obligations when due.

Unfunded Commitments. In order to meet its obligation to provide capital for unfunded commitments, the Fund may have to hold some, or in certain cases a substantial amount, of its assets temporarily in money market securities, cash or cash equivalents, possibly for several months; liquidate portfolio securities at an inopportune time; or borrow under a line of credit. This could make it difficult or impossible to take or liquidate a position in a particular security at a price consistent with the Adviser's strategy.

Risks Relating to Current Interest Rate Environment. A wide variety of factors can cause interest rates or yields of U.S. Treasury securities (or yields of other types of bonds) to rise (e.g., central bank monetary policies, inflation rates, general economic conditions, reduced market demand for low yielding investments, etc.). The U.S. Federal Reserve raised interest rates in light of recent inflationary pressures and interest rates may continue to increase rapidly. Thus, the Fund currently faces a heightened level of risk associated with elevated interest rates and/or bond yields.

Liquidity Risk. The Fund will invest in restricted securities and other investments that are illiquid. Restricted securities are securities that may not be sold to the public without an effective registration statement under the Securities Act, or, if they are unregistered, may be sold only in a privately negotiated transaction or pursuant to an exemption from registration under the Securities Act. The Fund may be unable to sell restricted and other illiquid securities at the most opportune times or at prices approximating the value at which it purchased such securities. The Fund's portfolio may include a number of investments for which no market exists and which have substantial restrictions on transferability.

In addition, the Fund's interests in the Private Investment Funds are subject to substantial restrictions on transfer. The Fund may liquidate an interest and withdraw from a Private Investment Funds pursuant to limited withdrawal rights. Some Private Investment Funds may subject the Fund to a lockup period or otherwise suspend the repurchase rights of their shareholders, including the Fund, from time to time. Further, Private Investment Funds

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024 (continued)

managers may impose transfer restrictions on the Fund's interests. There may be no secondary market for the Fund's interests in the Private Investment Funds. The illiquidity of these interests may adversely affect the Fund were it to have to sell interests at an inopportune time. Sub-REITs invest in illiquid assets, and may be unable to sell their assets, or be forced to sell them at reduced prices. The Adviser may also invest directly in other private securities that they may not be able to sell at the Fund's current carrying value for the securities.

Market Disruption, Health Crises, Terrorism and Geopolitical Risks. The Fund's investments may be negatively affected by the broad investment environment in the real assets market, the debt market and/or the equity securities market. The investment environment is influenced by, among other things, interest rates, inflation, politics, fiscal policy, current events, competition, productivity and technological and regulatory change. In addition, the Fund may be adversely affected by uncertainties such as war, terrorism, international political developments, sanctions or embargos, tariffs and trade wars, changes in government policies, global health crises or similar pandemics, and other related geopolitical events may lead to increased short-term market volatility and have adverse long-term effects on world economies and markets generally, as well as adverse effects on issuers of securities and the value of investments.

NOTE 6. FORWARD CONTRACTS

The Fund may use forward contracts for hedging exposure to foreign currencies. A forward foreign currency exchange contract, which involves an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract, may reduce the Fund's exposure to changes in the value of the currency it will deliver and increase its exposure to changes in the value of the currency it will receive for the duration of the contract. The effect on the value of the Fund is similar to selling securities denominated in one currency and purchasing securities denominated in another currency. Foreign currency transactions, like currency exchange rates, can be affected unpredictably by intervention (or the failure to intervene) by U.S. or foreign governments or central banks, or by currency controls or political developments. Such events may prevent or restrict the Fund's ability to enter into foreign currency transactions, force the Fund to exit a foreign currency transaction at a disadvantageous time or price or result in penalties for the Fund, any of which may result in a loss to the Fund. Contracts to sell foreign currency would limit any potential gain that might be realized by the Fund if the value of the hedged currency increases. The Fund may enter into these contracts to hedge against foreign exchange risk arising from the Fund's investment or anticipated investment in securities denominated in foreign currencies. Suitable hedging transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in such transactions at any given time or from time to time when they would be beneficial.

As of March 31, 2024, the Fund does not hold any forward foreign exchange contracts.

NOTE 7. INVESTMENT TRANSACTIONS

For the year ended March 31, 2024, the purchases and sales of investment securities, excluding short-term investments, were approximately \$553,377,000 and \$552,583,000, respectively.

NOTE 8. REPURCHASE OFFERS

The Fund has a fundamental policy that it will make quarterly Repurchase Offers for no less than 5% of its shares outstanding at NAV, unless suspended or postponed in accordance with regulatory requirements (as discussed below), and that each quarterly repurchase pricing shall occur no later than the 14th day after the Repurchase Request Deadline (defined below), or the next Business Day if the 14th is not a Business Day (each a "Repurchase Pricing Date"). In general, the Repurchase Pricing Date occurs on the Repurchase Request Deadline and settlement occurs 3 days later. Shares will be repurchased at the NAV per Share determined as of the close of regular trading on the NYSE on the Repurchase Pricing Date.

Shareholders will be notified in writing about each quarterly Repurchase Offer, how they may request that the Fund repurchase their shares and the Repurchase Request Deadline, which is the date the Repurchase Offer ends. The Repurchase Request Deadline will be determined by the Board. The time between the notification to shareholders and the Repurchase Request Deadline may vary from no more than 42 days to no less than 21 days. The repurchase price of the shares will be the NAV as of the close of regular trading on the NYSE on the Repurchase Pricing Date. Payment pursuant to the repurchase will be made to the shareholders within seven days of the Repurchase Pricing Date (the "Repurchase Payment Deadline"). Certain authorized institutions, including custodians and clearing platforms, may set times prior to the Repurchase Request Deadline by which they must receive all documentation they may require relating to repurchase requests and may require additional information. In addition, certain clearing houses may allow / require shareholders to submit their tender request only on the Repurchase Request Deadline.

Shares tendered for repurchase by shareholders prior to any Repurchase Request Deadline will be repurchased subject to the aggregate repurchase amounts established for that Repurchase Request Deadline. Repurchase proceeds will be paid to shareholders prior to the Repurchase Payment Deadline.

The Board, or a committee thereof, in its sole discretion, will determine the number of shares that the Fund will offer to repurchase (the "Repurchase Offer Amount") for a given Repurchase Request Deadline. The Repurchase Offer Amount, however, will be no less than 5% of the total number of shares outstanding on the Repurchase Request Deadline.

If Share repurchase requests exceed the number of Shares in the Fund's Repurchase Offer, the Fund may, in its sole discretion (i) repurchase the tendered Shares on a pro rata basis or (ii) increase the number of Shares to be repurchased by up to 2% of the Fund's outstanding Shares. If Share repurchase requests exceed the number of Shares in the Fund's Repurchase Offer plus 2% of the Fund's outstanding Shares, the Fund is required to repurchase the Shares on a pro rata basis. However, the Fund may accept all shares tendered for repurchase by shareholders who own less than one hundred shares and

VERSUS CAPITAL REAL ASSETS FUND LLC
Notes to Financial Statements
March 31, 2024 (continued)

who tender all of their Shares before prorating other amounts tendered. Because of the potential for proration, tendering shareholders may not have all of their tendered Shares repurchased by the Fund.

Results of the Fund's Repurchase Offers during the year ended March 31, 2024 are as follows:

Repurchase Request Deadline/Pricing Date	Repurchase Offer Amount (Percentage)	Repurchase Offer Amount (Shares)	Shares Tendered for Repurchase	Percentage of Tendered Shares Repurchased	Value of Repurchased Shares
May 19, 2023.....	5%	5,648,722	3,511,499	100%	\$ 96,320,407
August 25, 2023.....	5	5,722,326	4,758,728	100%	130,436,735
November 17, 2023.....	5	5,690,728	7,182,417	100%	196,726,407
February 23, 2024.....	5	5,526,735	5,804,566	100%	159,799,695

NOTE 9. LINE OF CREDIT

Before April 14, 2023, the Fund had its line of credit ("LOC") with Zions Bancorporation N.A. dba Vectra Bank Colorado ("Vectra") with borrowing capacity of \$165,000,000. Borrowings, if any, under the LOC bore interest at the one-month Secured Overnight Financing Rate (SOFR), plus 1.60% at the time of borrowing. In addition, the Fund incurred a Non-Utilization Fee equal to 0.375% on the portion of the LOC not being used and certain origination and structuring fees (the "other LOC fees").

Effective April 14, 2023 the Fund terminated its Vectra LOC and opened a new LOC with Bank of America N.A. and increased its borrowing capacity from \$165,000,000 to \$245,000,000. Borrowings, if any, under the LOC bear interest at the Secured Overnight Financing Rate (SOFR) at the time of borrowing, plus 1.10%. In addition, the Fund incurs a Non-Utilization Fee equal to 0.25%-0.35% on the portion of the LOC not being used. As collateral for borrowings under the LOC, the Fund grants Bank of America a first position security interest in and lien on securities held by the Fund in a collateral account.

The Fund incurred interest expense of \$2,063,622 and other LOC fees equal to \$825,888 during the year ended March 31, 2024. During the year ended March 31, 2024, the average daily amount of borrowings on the days that the Fund had an outstanding borrowing was \$81,514,085. The Fund's outstanding borrowings from the LOC were \$105,000,000 at March 31, 2024 at a rate of 6.43%. The Fund complied with all covenants of the LOC during the year ended March 31, 2024.

NOTE 10. RESTRICTED SECURITIES

Restricted securities include securities that have not been registered under the Securities Act of 1933, as amended, and securities that are subject to restrictions on resale. The Fund may invest in restricted securities that are consistent with the Fund's investment objective and investment strategies. Investments in restricted securities are valued at net asset value as practical expedient for fair value, or fair value as determined in good faith in accordance with procedures adopted by the Board. It is possible that the estimated value may differ significantly from the amount that might ultimately be realized in the near term, and the difference could be material. Each of the following securities can suspend redemptions if its respective Board deems it in the best interest of its shareholders. This and other important information are described in the Fund's Prospectus.

As of March 31, 2024, the Fund invested in the following restricted securities:

- (a) The securities include Investment Funds, private debt investments, and a wholly-owned REIT subsidiary. The Investment Funds are organized to serve as a collective investment vehicle through which eligible investors may invest in a professionally managed real asset portfolio of equity and debt investments consisting of timberland, infrastructure, agriculture and farmland. The Fund has also invested in wholly-owned and controlled subsidiaries that make direct investments into timberland and agriculture/farmland assets.
- (b) Initial acquisition date as shares are purchased at various dates.
- (c) At March 31, 2024, the Fund has an additional outstanding unfunded commitment of \$100 million related to a new Investment Fund.
- (d) Unfunded Commitments approximate their fair values.

NOTE 12. COMMITMENTS AND CONTINGENCIES

As of March 31, 2024, the Fund had unfunded commitments to fund delayed draw and revolving debt of \$5,833,333. The unfunded debts’ fair value is included in the investments at fair value on the Statement of Assets and Liabilities.

Investment and Type	Rate on Unfunded Portion	Par Amount	Fair Value
Future Fiber Holdings – Delayed Draw Term Loan, 5/1/2025.....	1.00%	\$5,833,333	\$117,875

NOTE 13. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2022, the Financial Accounting Standards Board issued Accounting Standards Update 2022-03, Fair Value Measurement (Topic 820) – Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions "ASU 2022-03", which clarifies guidance when measuring the fair value of an equity security subject to contractual restrictions that prohibit its sale. The guidance is effective for fiscal years beginning after December 15, 2024. The Adviser has assessed and does not expect a material impact to the financial statements as a result of the ASU 2022-03.

In September 2023, the SEC adopted amendments to the 1940 Act “Names Rule” addressing fund names, investments, and risks. The amendments modernize and enhance the Names Rule and other names-related regulatory requirements. The amendments include enhanced disclosure requirements for terminology used in fund names and additional regulatory reporting. The Names Rule was effective December 2023, and the Fund will have 24 months to comply. The Adviser is currently evaluating any expected impacts to the Fund.

NOTE 14. SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued and determined that there are no additional subsequent events to report.
